Mediumship class? Curiosity got the best of Faith Tanner when she agreed to enroll in such a class with a friend. Little did she know it would set off a series of events that would completely change her life. A promise, made by her ancestors, forces her to work with an angel intent on making her keep her family vow. Thrust into grave situations by this angel, Faith feels compelled to follow her path - whether she wants to or not. Choose not to help and the person could die; choose to help and it puts her life at risk. Even worse is knowing that this legacy puts her family in danger as well. She soon discovers that she is not without the means to help herself, as she's been given divine gifts to carry her through the missions. Gifts which she must draw upon from her spiritual being in order to survive and succeed, especially when she finds herself in a place where angels cannot venture.
