Aquaporins: 51 (Current Topics in Membranes)

Aquaporins: 51 (Current Topics in Membranes)

Aquaporins summarizes the present knowledge in this expanding field of research, starting with the structural analysis of water channel proteins. Subsequent chapters begin with mammalian aquaporins, examining physiology and pathophysiology, analysis of knock-out model animals, and the regulation of aquaporin function. Also covered is the distribution and regulation of aquaporins in plants and the function of water and glycerol channels in microbial systems.

Key Features

- * Comprehensive treatment of a topical research field
- * Authored by world leaders in the field
- * Covers structural biology and physiology
- * Covers different experimental and biological systems
- * Chapters on plant and microbial systems
- * Extensive treatment of mammalian physiology and pathophysiology
- * Structural analysis excellently illustrated

From reader reviews:

Martha Silva:

Why don't make it to be your habit? Right now, try to prepare your time to do the important act, like looking for your favorite publication and reading a publication. Beside you can solve your problem; you can add your knowledge by the book entitled Aquaporins: 51 (Current Topics in Membranes). Try to make the book Aquaporins: 51 (Current Topics in Membranes) as your good friend. It means that it can be your friend when you sense alone and beside associated with course make you smarter than in the past. Yeah, it is very fortunate to suit your needs. The book makes you a lot more confidence because you can know anything by the book. So, we should make new experience as well as knowledge with this book.

Harold Riggs:

In this 21st one hundred year, people become competitive in every single way. By being competitive today, people have to do something to make these individuals survive, being in the middle of the actual crowded place and notice by simply surrounding. One thing that occasionally many people have underestimated this for a while is reading. Sure, by reading a book your ability to survive boost then having chance to stand than other is high. In your case who want to start reading some sort of book, we give you this kind of Aquaporins: 51 (Current Topics in Membranes) book as nice and daily reading guide. Why, because this book is greater than just a book.

Mary Bessler:

Hey guys, do you really want to find a new book to study? Maybe the book with the title Aquaporins: 51 (Current Topics in Membranes) suitable to you? The book was written by well-known writer in this era. Often the book entitled Aquaporins: 51 (Current Topics in Membranes) is the main one of several books which everyone read now. This book was inspired many people in the world. When you read this e-book you will enter the new dimensions that you ever know before. The author explained their strategy in the simple way, thus all of people can easily be aware of the core of this publication. This book will give you a large amount of information about this world now. So you can see the represented of the world on this book.

Rex Vogler:

Do you have something that you enjoy such as book? The e-book lovers usually prefer to opt for book like comic, small story and the biggest you are novel. Now, why not hoping Aquaporins: 51 (Current Topics in Membranes) that give your fun preference will be satisfied by simply reading this book. Reading behavior all over the world can be said as the method for people to know world much better than how they react towards the world. It can't be explained constantly that reading behavior only for the geeky person but for all of you who want to possibly be success person. So, for all of you who want to start examining as your good habit, it is possible to pick Aquaporins: 51 (Current Topics in Membranes) become your current starter.
