## **Data Fusion Support to Activity-Based Intelligence (The Artech House Intelligence and Information Operations Series) Richard T. Antony**

This new resource provides a coherent, intuitive, and theoretical foundation for the fusion and exploitation of traditional sensor data as well as text-based information. In addition to presenting a detailed discussion of base-level data fusion requirements, a variety of higher level exploitation algorithms are presented that perform fully automated relationship discovery, rank interest level of entities, and support context-sensitive behavior understanding (both static and dynamic context). This book identifies eight canonical fusion forms as well as twenty foundational fusion services to enable formal mapping between models and services. Normalization and representation processes for (hard) sensor data and (soft) semantic data are described as well as methods for combining hard and soft data. Included is a prototype fusion system developed to implement virtually all the presented applications in order to demonstrate the robustness and utility of the design principles presented in this resource. The prototype system presented supports a variety of user workflows and all the applications are fully integrated. There is extensive fusion system output for unclassified scenarios to permit the reader to fully understand all presented design principles. This book also presents context-sensitive fuzzy semantic spatial and temporal reasoning.

### **From reader reviews:**

#### **Agnes Figueroa:**

Are you kind of hectic person, only have 10 as well as 15 minute in your day to upgrading your mind skill or thinking skill actually analytical thinking? Then you have problem with the book compared to can satisfy your short period of time to read it because all of this time you only find reserve that need more time to be go through. Data Fusion Support to Activity-Based Intelligence (The Artech House Intelligence and Information Operations Series) can be your answer given it can be read by anyone who have those short time problems.

#### **Scott Marin:**

Many people spending their time by playing outside having friends, fun activity having family or just watching TV all day long. You can have new activity to pay your whole day by examining a book. Ugh, ya think reading a book can actually hard because you have to use the book everywhere? It fine you can have the e-book, taking everywhere you want in your Cell phone. Like Data Fusion Support to Activity-Based Intelligence (The Artech House Intelligence and Information Operations Series) which is keeping the e-book version. So , why not try out this book? Let's notice.

#### **Salvatore Anthony:**

As we know that book is significant thing to add our know-how for everything. By a publication we can know everything we wish. A book is a list of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This e-book Data Fusion Support to Activity-Based Intelligence (The Artech House Intelligence and Information Operations Series) was filled in relation to science. Spend your extra time to add your knowledge about your technology competence. Some people has distinct feel when they reading a new book. If you know how big advantage of a book, you can feel enjoy to read a e-book. In the modern era like at this point, many ways to get book that you wanted.

#### **Gary Williams:**

Guide is one of source of information. We can add our knowledge from it. Not only for students but additionally native or citizen have to have book to know the change information of year to be able to year. As we know those books have many advantages. Beside most of us add our knowledge, also can bring us to around the world. By book Data Fusion Support to Activity-Based Intelligence (The Artech House Intelligence and Information Operations Series) we can get more advantage. Don't you to definitely be creative people? To be creative person must love to read a book. Merely choose the best book that suited with your aim. Don't become doubt to change your life at this book Data Fusion Support to Activity-Based Intelligence (The Artech House Intelligence and Information Operations Series). You can more pleasing than now.
