Hierarchies of Belonging: National Identity and Political Culture in Scotland and Quebec Ailsa Henderson

Ailsa Henderson analyses each nation's linguistic, racial, cultural, economic, and political diversity within a historical and contemporary context. Challenging the assumption that nationalism in Scotland can be characterized as "civic" in contrast to an "ethnic" model in Quebec, Henderson adopts a more complex model of national identity that distinguishes between nationalistic rhetoric, which is invariably civic in form, and public understandings of belonging, which tend to rely on ethnic markers. In *Hierarchies of Belonging* she demonstrates that nationalist rhetoric and a sense of belonging affect how citizens feel about the state, the nation, and each other.
