The Philosophical Defence of Psychiatry (Philosophical Issues in Science) Lawrie Reznek

By first analysing the arguments of psychiatry's critics and the philosophical ideas of such thinkers as Freud, Eysenck, Laing, Szasz, Sedgwick and Foucault and by then providing answers to the many contentious and diverse questions raised, Dr. Reznek aims to establish a philosophical defence of the theory and practice of psychiatry.

As both a qualified philosopher and psychiatrist, the author is exceptionally placed to undertake the examination of a subject which has hitherto remained untackled. It will be easily accessible to a wide variety of non-specialists as well. It will be of specific interest to those involved in the practice of philosophy, psychiatry, clinical psychology, social work and psychiatric nursing.
