Laurie Ann Mazur

A Pivotal Moment: Population, Justice, and the Environmental Challenge Laurie Ann Mazur

With contributions by leading demographers, environmentalists, and reproductive health advocates, *A Pivotal Moment* offers a new perspective on the complex connection between population dynamics and environmental quality. It presents the latest research on the relationship between population growth and climate change, ecosystem health, and other environmental issues. It surveys the new demographic landscape—in which population growth rates have fallen, but human numbers continue to increase. It looks back at the lessons of the last half century while looking forward to population policies that are sustainable and just.

A Pivotal Moment embraces the concept of “population justice,” which holds that inequality is a root cause of both rapid population growth and environmental degradation. By addressing inequality—both gender and economic—we can reduce growth rates and build a sustainable future.
