**Library Classification Trends in the 21st Century (Chandos Information Professional Series) Rajendra Kumbhar**

Library Classification Trends in the 21st Century traces development in and around library classification as reported in literature published in the first decade of the 21st century. It reviews literature published on various aspects of library classification, including modern applications of classification such as internet resource discovery, automatic book classification, text categorization, modern manifestations of classification such as taxonomies, folksonomies and ontologies and interoperable systems enabling crosswalk. The book also features classification education and an exploration of relevant topics.

- Covers all aspects of library classification
- It is the only book that reviews literature published over a decade's time span (1999-2009)
- Well thought chapterization which is in tune with the LIS and classification curriculum
