Zombies: A Record of the Year of Infection Chris Lane, Don Roff

Taking the form of a biologist's illustrated journal found in the aftermath of the attack, this pulse-pounding, suspenseful tale of zombie apocalypse follows the narrator as he flees from city to countryside and heads north to Canada, where he hopes the undead will be slowed by the colder climate. Encountering scattered humans and scores of the infected along the way, he fills his notebook with graphic drawings of the zombies and careful observations of their behavior, along with terrifying tales of survival. This frightening new contribution to the massively popular zombie resurgence will keep fans on the edge of their seats right up to the very end.
