NRM 2 - Detailed Measurement for Capital Building Works: NRM 2 (New Rules of Measurement)

RICS

The rules have been written to provide a standard set of measurement rules that are understandable by all those involved in a construction project. They provide advice and best practice guidance to RICS members involved in the cost management of construction projects worldwide. This volume, NRM 2:detailed method of measurement for capital building works, provides fundamental guidance on the detailed measurement and description of building works for the purpose of obtaining a tender price. The rules address all aspects of bill of quantities (BQ) production, including setting out the information required from the employer and other construction consultants to enable a BQ to be prepared, as well as dealing with the quantification of non-measurable work items, contractor designed works and risks. Guidance is also provided the content, structure and format of BQ, as well as the benefits and uses of BQ.
