Rodrigo de Souza Vieira

Crescimento econômico no estado de São Paulo: uma análise espacial (Portuguese Edition) Rodrigo de Souza Vieira

Neste livro são abordados os fatores do crescimento econômico e dos desequilíbrios regionais no Estado de São Paulo entre 1980 e 2000. Fundamentado na teoria mainstream de crescimento econômico e nas teorias da localização, bem como nas contribuições da Nova Geografia Econômica, a obra relaciona o crescimento local com seus determinantes econômicos, sociais e geográficos, tais como educação, emprego e composição setorial. Ferramentas fornecidas pela Econometria Espacial também foram aplicadas ao se inserir a geografia como determinante das taxas de crescimento dos municípios. Dessa forma, o livro fornece ainda uma revisão da abordagem clássica de Econometria Espacial e seu ordenamento sistemático.
