An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed Marine Expeditionary Unit

Harold A. Viado

This is a NAVAL POSTGRADUATE SCHOOL MONTEREY CA report procured by the Pentagon and made available for public release. It has been reproduced in the best form available to the Pentagon. It is not spiral-bound, but rather assembled with Velobinding in a soft, white linen cover. The Storming Media report number is A534563. The abstract provided by the Pentagon follows: Operational Maneuver From the Sea (OMFTS) is a Marine Corps concept that shifts the emphasis from blue-water superiority to power projection in the littorals. OMFTS treats the sea as maneuver space, and moves forces directly from ship to objectives ashore with little or no prior build-up of supplies ashore. This thesis develops the Sea-Based Logistic Optimization Model (SBLOM), an integer programming model that assesses the feasibility of conducting sea-based logistics in an OMFTS scenario based on capabilities of current and future assets, e.g., the Landing Craft Air Cushion and the MV-22 Osprey aircraft. SBLOM minimizes (when feasible) the initial fuel requirement of the Marine Expeditionary Unit (Special Operations Capable) (MEU(SOC)) ashore, and develops a fuel-delivery schedule from the sea using the lift assets available on a group of three or four ships known as an Amphibious Readiness Group (ARG). Using two OMFTS scenarios, SBLOM is run with the ARG at stand-off distances of 50, 70, and 100 nautical miles. The scenarios involve a humanitarian mission and an amphibious raid. In all cases, the use of sea-based logistics is feasible: An optimal delivery schedule is developed that meets the daily fuel requirements of the MEU(SOC) and maintains sufficient fuel levels throughout the mission's duration.

From reader reviews:

Javier Link:

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite reserve and reading a guide. Beside you can solve your condition; you can add your knowledge by the publication entitled An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed Marine Expeditionary Unit. Try to make book An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed Marine Expeditionary Unit as your buddy. It means that it can to become your friend when you sense alone and beside those of course make you smarter than previously. Yeah, it is very fortunated to suit your needs. The book makes you considerably more confidence because you can know almost everything by the book. So , let me make new experience and also knowledge with this book.

Mary Hopkins:

Many people spending their period by playing outside using friends, fun activity with family or just watching TV all day long. You can have new activity to pay your whole day by looking at a book. Ugh, think reading a book can definitely hard because you have to use the book everywhere? It ok you can have the e-book, bringing everywhere you want in your Touch screen phone. Like An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed Marine Expeditionary Unit which is keeping the e-book version. So , why not try out this book? Let's find.

Diana Chung:

Do you like reading a book? Confuse to looking for your best book? Or your book was rare? Why so many problem for the book? But any people feel that they enjoy for reading. Some people likes examining, not only science book but in addition novel and An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed Marine Expeditionary Unit or maybe others sources were given knowledge for you. After you know how the truly amazing a book, you feel need to read more and more. Science book was created for teacher or perhaps students especially. Those books are helping them to bring their knowledge. In additional case, beside science book, any other book likes An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed Marine Expeditionary Unit to make your spare time much more colorful. Many types of book like here.

Quincy Nelson:

Reading a e-book make you to get more knowledge from this. You can take knowledge and information originating from a book. Book is written or printed or highlighted from each source in which filled update of news. Within this modern era like at this point, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add your understanding by that book. Ready to spend your spare time to open your book? Or just in search of the An Optimization Model for Sea-Based Supply of Bulk Fuel for a Deployed

Marine Expeditionary Unit when you desired it?
