Shells

Leonard Hill

Shells Leonard Hill

Nature has created an almost infinite variety of life in the sea, and seashells are the prize of this vast environment. *Shells* reveals the striking patterns and forms that make shells a work of art in their own right, from the extraordinary architectural detail of the chambered nautilus to the varied hues of the senatorial scallop. Moreover, shells have had a significant influence on many facets of society. Through lively and informative text and more than 300 striking photographs presented in an oversized format, *Shells* depicts Iroquois money belts made from the shell of the quahog; a cowrie headdress used by a Mali witch doctor; and the scallop shell motif in art and architecture. Also featured are rare photographs of the fascinating creatures that live within shells; current data on collecting practices and trends; and a discussion of environmental issues around collection and conservation.
