Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering)

Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering)

Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering)
The current book provides a final report of activity performed by the COST 290 Action, ''Traffic and QoS Management in Wireless Multimedia Networks,'' which ran from March 10, 2004, until June 3, 2008. After an introduction to the COST framework and the Action's survey time-frame and activities, the main part of the book addresses a number of technical issues, which are structured into several chapters. All those issues have been carefully investigated by the COST 290 community during the course of the project – the information presented in this book can be regarded as ultimate for each particular topic; every open research issue addressed in the book is described carefully, corresponding existing studies are analyzed and results achieved by the COST 290 community are presented and compared, and further research directions are defined and analyzed. Because the book covers a wide area of research addressing issues of modern wired and wireless networking at different layers, starting from the physical layer up to the application layer, it can be recommended to be used by researchers and students to obtain a comprehensive analysis on particular research topics including related areas, to obtain broad and ultimate referencing, and to be advised on current open issues. COST 290 is one of the Actions of the European COST Program. Founded in 1971, COST is an intergovernmental framework for European Cooperation in the field of Scientific and Technical Research, allowing the coordination of nationally funded research on a European level.

From reader reviews:

Arthur Walker:

Here thing why this kind of Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) are different and dependable to be yours. First of all reading a book is good but it really depends in the content from it which is the content is as scrumptious as food or not. Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) giving you information deeper and different ways, you can find any reserve out there but there is no guide that similar with Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering). It gives you thrill reading journey, its open up your personal eyes about the thing that will happened in the world which is possibly can be happened around you. You can easily bring everywhere like in park, café, or even in your means home by train. Should you be having difficulties in bringing the printed book maybe the form of Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) in e-book can be your choice.

Samuel Travis:

Typically the book Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) will bring someone to the new experience of reading a book. The author style to elucidate the idea is very unique. Should you try to find new book to study, this book very suited to you. The book Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) is much recommended to you to study. You can also get the e-book from your official web site, so you can more readily to read the book.

Avery Thomas:

Do you like reading a reserve? Confuse to looking for your chosen book? Or your book was rare? Why so many concern for the book? But any kind of people feel that they enjoy with regard to reading. Some people likes reading through, not only science book and also novel and Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) or perhaps others sources were given understanding for you. After you know how the great a book, you feel desire to read more and more. Science e-book was created for teacher or perhaps students especially. Those books are helping them to add their knowledge. In different case, beside science book, any other book likes Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) to make your spare time considerably more colorful. Many types of book like this.

Eddie McCoy:

A number of people said that they feel weary when they reading a book. They are directly felt the item when they get a half elements of the book. You can choose the particular book Traffic and QoS Management in

Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) to make your reading is interesting. Your own skill of reading skill is developing when you just like reading. Try to choose straightforward book to make you enjoy to learn it and mingle the idea about book and reading through especially. It is to be first opinion for you to like to wide open a book and go through it. Beside that the reserve Traffic and QoS Management in Wireless Multimedia Networks: COST 290 Final Report (Lecture Notes in Electrical Engineering) can to be your friend when you're truly feel alone and confuse using what must you're doing of their time.
