It took me more than a year to finish the drawings in this book. I took my time while working on drawings, many all at once, going back and forth between them. I had fun coming up with all these different variations. There are a wide range of ideas, and many unusual shapes, put together to make a whole array abstract patterns for you to take a relaxing and colorful journey into... "Abstract Adventure 11".

26 of the 52 designs are what I call "Clones". These Clones are slightly altered from the original drawings, forming another entirely unique perspective to the creative coloring experience.

This book contains color theories to guide you while coloring outside the box. Colors also create harmonies, discords, patterns and depth. Use these theories to help answer your questions and to bring out the artist in you!
