Chinese Cyber Nationalism offers the first comprehensive examination of the social and ideological movement that mixes Confucian cultural traditions and advanced media technology. Over the past decade, the Internet has increasingly become a communication center, organizational platform, and channel of execution by which Chinese nationalistic causes have been promoted throughout the world. Dr. Xu Wu chronicles the movement's evolutionary path through five distinct developing phases that cover the span of twelve years. Through the use of online surveys and in-depth interviews with foreign policy makers, nationalist webmasters, and leading intellectuals in China, this book analyzes the characteristics and political implications of the movement. Xu presents a unique framework for scholars to understand China's modernization and historic return onto the world stage. Chinese Cyber Nationalism is an important addition to the study of political communication and China's foreign policy.
