The new millennium is here folks, and it's not going well. Seems the world can't stop warring over their petty self-righteous dispositions for intolerance. Well it's high time to put an end to this madness. Can religion and science, with their elegant secrets of Zen-time and modern revelations of quantum physics keep them from destroying the world in time? Or will golf and rock 'n roll?

In *FAR WAY TO EVEN*, Boleyn refuses to sit quietly in the waiting room. He much prefers to play, crashing through the door and taking your chair, along with your cigars, and having a jolly good time doing it. Crafting all the shades of satire available at his disposal, the journey of a mud-stained guitar and his shifty golf club pal on their unlikely way to play the world stage with their heroes turns into a tour de force commentary on what plagues modern humanity. Much to our surprise, the probability of a cure existing within quantum fields of Zen guitars golfing along fairways to heaven provides a vast playing field for Boleyn's outrageous predilection for literary mischief.
