Three of the most important self-help tomes on getting rich and prosperity—now available in one place and at one low price!

These three books are considered by many experts to be the most important manuals on how to get rich and prosper. Written at the turn of the century, these books contain timeless wisdom that applies to yesterday, today, and the days to come. Why wait? Start living more prosperously today!

Think and Grow Rich by Napoleon Hill

This book has been called the "Granddaddy of All Motivational Literature." It was the first book to boldly ask, "What makes a winner?" The man who asked and listened for the answer, Napoleon Hill, is now counted in the top ranks of the world's winners himself. The most famous of all teachers of success spent "a fortune and the better part of a lifetime of effort" to produce the "Law of Success" philosophy that forms the basis of his books and that is so powerfully summarized in this one.

In the original *Think and Grow Rich*, published in 1937, Hill draws on stories of Andrew Carnegie, Thomas Edison, Henry Ford, and other millionaires of his generation to illustrate his principles. In the updated version, Arthur R. Pell, Ph.D., a nationally known author, lecturer, and consultant in human resources management and an expert in applying Hill's thought, deftly interweaves anecdotes of how contemporary millionaires and billionaires, such as Bill Gates, Mary Kay Ash, Dave Thomas, and Sir John Templeton, achieved their wealth. Outmoded or arcane terminology and examples are faithfully refreshed to preclude any stumbling blocks to a new generation of readers.

The Science of Getting Rich by Wallace D. Wattles

As featured in the bestselling book *The Secret*, here is the landmark guide to wealth creation republished with the classic essay "How to Get What You Want." Wallace D. Wattles spent a lifetime considering the laws of success as he found them in the work of the world's great philosophers. He then turned his life effort into this simple, slender book—a volume that he vowed could replace libraries of philosophy, spirituality, and self-help for the purpose of attaining one definite goal: a life of prosperity. Wattles describes a definite science of wealth attraction, built on the foundation of one commanding idea: "There is a thinking stuff from which all things are made...A thought, in this substance, produces the thing that is imaged by the thought." In his seventeen short, straight-to-the-point chapters, Wattles shows how to **use** this idea, how to **overcome** barriers to its application, and how work with very direct **methods** that awaken it in your life. He further explains how **creation and not competition** is the hidden key to wealth attraction, and how your power to get rich uplifts everyone around you. *The Science of Getting Rich* concludes with Wattle's rare essay "How to Get What You Want"—a brilliant refresher of his laws of wealth creation.

The Master Key System by Charles F. Haanel

Businessman Charles F. Haanel made a meticulous study of the "Law of Attraction" in *The Master Key System*—a step-by-step guide to activating the principle of mental power, and a core inspiration behind *The Secret*.
