**Atlas of Renal Pathology (Current Histopathology)** R.A. Risdon, D.R. Turner

This book is intended as a practical bench manual for the hospital pathologist who wishes to have where appropriate these have been illustrated. access to a simple informative account of renal pathology, particularly for the interpretation of the relevant clinical aspects of the conditions covered by percutaneous needle biopsy specimens. In addition are included in recognition of the fact that we trust it will be valuable to physicians working in renal disease is an area in which correlation of the histopathological findings is particularly important in reaching an informed diagnosis. Whilst a comprehensive coverage more appropriate to a larger text has not been attempted, the Acknowledgements text has been planned to give an adequate account of the more important non-neoplastic diseases and their pathological appearances in the Histopathology Laboratories of The London Hospital. Points of difficulty in interpretation and differential diagnosis are covered both in the text and in the illustrations.
