Vega, a journalist by trade and a cynic for life, came up with a brilliant pitch for a series of articles. Recount the tales of lesbian and gay couples to assure the heterosexual population that the institution of marriage isn't at risk now that gay marriage is legal. Her editor loved the idea. Vega loved the notion of a long-term assignment that paid regularly. What she didn't realize until too late was that she'd have to sit through every one of these often banal, regularly nauseating love stories without wanting to hurl herself off the nearest cliff. So much for her brilliant idea. By the time she arrives in Seattle, she's already had enough of interviewing couples, but she's determined to see it through. After all, if the readers of a national newspaper can recognize a love story as a love story, regardless of sexuality, she might change a few minds out there. Helping to temper the discontent is new friend Iris, who seems to know everyone's story and, more importantly, shares Vega's take on them. As the interviews continue and her friendship with Iris grows, Vega wonders if her lifelong cynical attitude toward love might be softening a bit. NOTE: This is a romance wrapped in a satire. You'll get your romance, but along the way, common romance themes, character traits, and plot points are mocked a bit (or a lot.) If you cherish every word ever written in all your favorite lesbian romances and never once thought, "Oh, come on! That would never happen," then this book is not for you.
