By the time photography was invented in the 1830s, the University of Pennsylvania, America's first university, was nearly a century old. University of Pennsylvania, a unique photographic collection, focuses on the school's history at its present campus in West Philadelphia beginning shortly after the end of the Civil War and provides images of more than a century of student life inside and outside the classroom. In every category, from campus landmarks to the student body to the traditions that bind the community together, these photographs demonstrate the close connections between Penn's present and its past. They also reveal historical aspects of the Penn experience that have since vanished.
