Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition) Stefano Ferilli
This text reviews the issues involved in handling and processing digital documents. Examining the full range of a document's lifetime, the book covers acquisition, representation, security, pre-processing, layout analysis, understanding, analysis of single components, information extraction, filing, indexing and retrieval. Features: provides a list of acronyms and a glossary of technical terms; contains appendices covering key concepts in machine learning, and providing a case study on building an intelligent system for digital document and library management; discusses issues of security, and legal aspects of digital documents; examines core issues of document image analysis, and image processing techniques of particular relevance to digitized documents; reviews the resources available for natural language processing, in addition to techniques of linguistic analysis for content handling; investigates methods for extracting and retrieving data/information from a document.

From reader reviews:

Shane Bodine:

Here thing why that Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition) are different and reliable to be yours. First of all reading a book is good but it really depends in the content of computer which is the content is as yummy as food or not. Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition) giving you information deeper and different ways, you can find any e-book out there but there is no reserve that similar with Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition). It gives you thrill reading journey, its open up your own eyes about the thing that will happened in the world which is possibly can be happened around you. You can easily bring everywhere like in recreation area, café, or even in your technique home by train. When you are having difficulties in bringing the printed book maybe the form of Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition) in e-book can be your option.

Andrew Martin:

Reading a reserve tends to be new life style within this era globalization. With reading through you can get a lot of information that could give you benefit in your life. Having book everyone in this world can easily share their idea. Publications can also inspire a lot of people. Lots of author can inspire their reader with their story or maybe their experience. Not only the story that share in the textbooks. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors on this planet always try to improve their expertise in writing, they also doing some investigation before they write on their book. One of them is this Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition).

Leola Grant:

The reason why? Because this Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition) is an unordinary book that the inside of the reserve waiting for you to snap the item but latter it will distress you with the secret that inside. Reading this book adjacent to it was fantastic author who all write the book in such awesome way makes the content on the inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This phenomenal book will give you a lot of advantages than the other book get such as help improving your expertise and your critical thinking approach. So , still want to postpone having that book? If I ended up you I will go to the publication store hurriedly.

Hubert Smith:

Is it you actually who having spare time subsequently spend it whole day through watching television programs or just lying down on the bed? Do you need something totally new? This Automatic Digital Document Processing and Management: Problems, Algorithms and Techniques (Advances in Computer Vision and Pattern Recognition) can be the solution, oh how comes? It's a book you know. You are and so out of date, spending your time by reading in this fresh era is common not a geek activity. So what these publications have than the others?
