Youth workers are in a tough spot these days. On the one hand, we're finding that teenagers who have little to no church background and Bible literacy tend to be hyper tolerant of all religious views except for Christianity. On the other hand, students who grew up in the church and have heard all of the right answers are still struggling to articulate their beliefs and live them out day to day.

When these two realities combine in youth ministry, they can make teaching teenagers about spiritual things an infuriating experience. It can feel like you're banging your head against a brick wall.

It's been said that insanity is doing the same thing over and over again and expecting different results. So maybe it's time we try something different when it comes to teaching theology to our students. That's the hopeful change that *Teaching Teenagers in a Post-Christian World* addresses.

As a follow-up to Brock Morgan's exceptional *Youth Ministry in a Post-Christian World*, this book will help you shift from being a content dispenser to a conversation cultivator. It's time we stop treating teenagers like consumers even when we really believe in what we're selling. Instead, let's create learning environments that lead to faith exploration and ownership.
