L'energia solare (Farsi un'idea) (Italian Edition)

Pietro Menna, Francesco Pauli

L'energia solare (Farsi un'idea) (Italian Edition) Pietro Menna, Francesco Pauli

Come limitare l'impatto dei consumi di energia sull'uomo e sull'ambiente, senza compromettere lo sviluppo economico? Un impiego delle fonti rinnovabili, e in particolare dell'energia solare, è ormai ritenuto necessario e possibile, anche in ampie proporzioni. Nel volume si discutono gli aspetti tecnologici ed economici dello sfruttamento dell'energia solare e si offre un quadro delle politiche nazionali e dell'Unione europea nel settore. Infine, si passano in rassegna alcuni scenari di sviluppo di questa fonte di energia che crescerà molto prima e sarà più a buon mercato di quanto oggi si creda.
